## Product description

All Pump Addicted pumps are here to impress with an amazing variety of devices for penis enhancement!
Pump Addicted is the best way to improve sexual performance, size and stamina. We sent product samples to men aged 25 to 55 who experienced erectile difficulties or simply wanted to enhance their performance and penis size. The feedback was 100% positive — everyone confirmed it is the best product on the market.

Pump Addicted helps you achieve an erection more easily using a vacuum system that draws blood into the penis while it is still flaccid. The erection is achieved and maintained through a comfortable, airtight seal at the base of the body, right where the penis meets the pubic area, which helps keep the blood inside the shaft. Thanks to the sleeve, the seal is firm, comfortable and tight without squeezing.

Additionally, all Pump products can be combined with the Pump Vibrating Bullet for increased pleasure. And if that wasn’t enough, some Pump models can also be paired with the Pleasure Sleeve masturbator, available in two sizes. This incredible accessory transforms your favorite Pump Addicted device into a masturbator — and thanks to the vacuum effect, your penis appears up to 5 times larger visually, creating a truly impressive optical effect when using Pump.

Doctors consider penis pumps an effective and affordable treatment for erectile dysfunction, and they state that long-term use of these devices can lead to permanent penis size increase. Other advantages of the PUMP ADDICTED range include delayed ejaculation, increased sexual appetite, a boost in testosterone, harder and longer-lasting erections, and support for penile tissue after prostate surgery.

**PUMP ADDICTED delivers instant results!**

**Technical Specifications of Pump Addicted:**

- Insertable length: 23 cm
- Inner total diameter: 5.5 cm
- Material: ABS + Silicone
