Product description

All Pump Addicted pumps are here to impress with a fantastic variety of penis enlargement devices!
Pump Addicted is the best way to improve your sexual performance, size and stamina. We sent product samples to men aged 25 to 55 who had erection difficulties or simply wanted to enhance their performance and penis size. The feedback was 100% positive — everyone confirmed it is the best product on the market.

Pump Addicted helps achieve an erection more easily by using a vacuum system that draws blood into the penis while it is still flaccid. The erection is achieved and maintained through a comfortable, airtight seal at the base of the body, right at the junction between the penis and the pubic area, which keeps the blood inside the shaft. Thanks to the sleeve, the seal is firm, comfortable and tight without squeezing.

In addition, all Pump products can be combined with the Pump vibrating bullet to increase pleasure. And if that's not enough, some Pump models can also be used with the Pleasure Sleeve masturbator, available in two sizes. This amazing accessory transforms your favorite Pump Addicted into a masturbator — and thanks to the vacuum effect, the penis appears visually up to 5 times larger, creating a truly impressive optical effect when using Pump.

Doctors consider penis pumps an effective and affordable treatment for erectile dysfunction and state that prolonged use of these devices will increase penis size permanently. Other advantages of the PUMP ADDICTED range include delayed ejaculation, improved libido, boosted testosterone, harder and longer-lasting erections, and tissue support after prostate surgery.

PUMP ADDICTED gives you instant results!
