EAN	**8435565956196**

Product description

All Pump Addicted pumps are here to impress with a fantastic variety of penis enlargement devices!
Pump Addicted is the best way to improve your sexual performance, size, and stamina. We sent product samples to men aged 25 to 55 who experienced erection problems or simply wanted to enhance their performance and penis size. The feedback was 100% positive — everyone confirmed it is the best product on the market.

Pump Addicted helps achieve an erection more easily by using a vacuum system that draws blood into the penis while it is still flaccid. The erection is achieved and maintained through a comfortable, airtight seal at the base of the body, right where the penis meets the pubic area, helping to keep blood inside the shaft. Thanks to the sleeve, the seal is firm, comfortable, and tight without squeezing.

In addition, all Pump products can be combined with the Pump vibrating bullet to enhance pleasure. And as if that weren’t enough, some models from the Pump series can also be paired with the Pleasure Sleeve masturbator, available in two sizes. This fantastic accessory transforms your favorite Pump Addicted pump into a masturbator — and due to the vacuum effect, the penis appears visually up to 5 times larger, creating an incredibly attractive optical effect when using Pump.

Doctors consider penis pumps an effective and affordable treatment for erectile dysfunction and state that prolonged use of these devices will permanently increase penis size. Other advantages of the PUMP ADDICTED range include delayed ejaculation, improved sexual appetite, a boost in testosterone, harder and longer-lasting erections, and penis tissue support after prostate surgery.

PUMP ADDICTED gives you instant results!
