Producer code	**FETISHID-228557**
EAN	**8435565925239**

Product description

VIBRATOR FOR G-SPOT STIMULATION

All the freedom of a battery-powered toy, without sacrificing power! REWOFLEX has the most powerful battery motor on the market, thanks to our patented rewobattery+ technology

WHAT MAKES REWOFLEX SPECIAL?

REWOFLEX is lined with silicone edges that ripple against your G-spot, giving you a deep massage with every movement. It's also very powerful, with the deep, booming bass tone vibration our customers love. We've designed a vibrator that maintains a constant level of power throughout the life of the battery, rather than becoming less and less powerful as the battery runs down.

What is the G spot?

You've probably heard of the G-spot, along with it being the “key” to achieving an incredible vaginal orgasm. It is real? The answer is complicated. The Gräfenberg spot, known as the G-spot, was discovered by Dr. Beverly Whipple when she noticed that making a “come hither” motion with her fingers along the inside of the vagina produced a physical response in women. He considered that this region could be the key for women to achieve orgasms during sexual relations. However, it is important to clarify that the G-spot is not really a distinct part of your anatomy. In fact, in a 2017 study, researchers tried and failed to find the G-spot. Instead of being a separate spot in your vagina, the G-spot is part of the clitoral area. This means that when you are stimulating the G-spot, you are actually stimulating part of the clitoris, which is much larger than we have been led to believe. It turns out that the pea-sized center where the inner labia attaches is actually just the tip of the clitoris and divides into two “roots” that can be about four inches long. Additionally, this region can vary depending on each woman, which explains why it can often be difficult to locate. However, when stimulated, the G-spot can cause female ejaculation (yes, this is real) and help women achieve a vaginal orgasm.

With **REWOFUN** , we have solved the way to find your G-spot easily. heat. All Rewolution toys are of course waterproof and will be your perfect companion both in a romantic hot tub and under the comfortable sheets at home. The underwater vibrations of this fun companion are perceived by many couples as particularly intense. In addition, since the vibrator is waterproof (IPX7), it can also accompany you in the most humid places, such as the shower or bathtub. If Rewoflex runs out of steam, its built-in batteries can be recharged using the included USB charging cable.

Characteristics

- G-spot vibrator.
- Soft pulsating frequency vibrator
- Super intense deep vibration
- Medical grade silicone
- Lithium ion battery
- USB rechargeable

- IPX7 waterproof
- 10 vibration modes
- Contoured to precisely stimulate your pleasure points • Suitable for internal and external stimulation

- Measurements: 22.0 x 3.2 x 3.2 cm
    - Insertable length: 15.0 cm
- 100% vegan vibrator

To finish, REWOLUTION offers you a 2-year warranty. Ready for action?

What is REWOLUTION inspired by?

Long before the feminist movement took its first steps during the French Revolution, there have been women of great power, intelligence and with the authority to change the world; an achievement that has double merit, taking into account the time in which many of them lived. The example of these women showed a rupture of the social mold imposed by the dominant classes and the political, royal or ecclesiastical authority of the moment: that of women being subordinated to the power of men. While not all of them consciously worked for the equal rights movement, they helped inspire a moral and cultural transformation regarding the role of women in society.

Rewolution is inspired by the French Revolution adapted to the current era. A demand for rights for equality in all aspects. Abortion, interracial relationships, sex outside of marriage, erotic and pornographic films, sex parties, family planning and, above all, easy access to different contraceptive methods ends up bringing us fully into the sexual revolution. One that, now, has women at the forefront. Men might have had theirs in the past and of course they were invited to this one, but only with the liberation of women could true change come to our society. In recent decades, women have voluntarily and openly decided to become single mothers while making their way in their professional careers thanks to an autonomy that is no longer frowned upon.

This lifestyle is further reinforced by the appearance of in vitro reproduction techniques in the early 1980s. The second wave of feminism helps propel the third, at the beginning of the 1990s, bringing new issues to the forefront. table such as ecofeminism, lesbian feminism and trans feminism. Women begin to take action on issues that, despite being derived from their own sexual revolution, were still controlled by men. The history of women's sexual revolution continues to advance in the present, now driven by a fourth wave of feminism born last decade and that aims to tear down the loopholes of a sexist society by fighting against scourges such as sexual harassment or violence against women. women.

It doesn't matter what generation you are from. We are all protagonists of the sexual revolution and that is why we have created REWOLUTION!! Join the feminist movement and join the sexual revolution!
