Product description

Does size matter? It depends on what you want. If you want to be wetter, more aroused, and experience deeper sensations than ever before, then you want a long, strong vibration that hits your a-spot, the area near the cervix that has been shown to increase arousal. .

WHAT MAKES THIS POWERFUL DUAL MOTOR VIBRATOR SPECIAL?

We've installed two powerful, rumbling motors and put them in a design that's long and firm, for size lovers who crave dual stimulation. Do you need firmer pressure on your clitoris to get you where you're going? We've adapted our exclusive FlexiREWO Technology™ to make **REWOFUN** flexible but not too flexible, so you can enjoy more intense pressure from a shaft that adapts to your movement. Plus, the length gives you more options to play, as Whether that means vibrating the point that triggers arousal or simply having greater mobility.

LET'S TALK MORE ABOUT THE A-SPOT!

It is an area towards the back of the vagina, near the cervix. Massaging it increases physical arousal and lubrication, so it's obviously a lot of fun. You need a longer reach to stimulate it, which is where the REWOFUN long shaft comes into play. That's what makes REWOFUN the ultimate A-spot vibrator with extra power.

CAN I CONTROL SHAFT VIBRATION AND CLIT EXTENSION SEPARATELY?

Of course! You can combine vibration modes and intensities. Let's say you like the low, rumbling vibration of the shaft and a clitoral-provoking vibration pattern: it's easy, its easy-to-use buttons give you a unique experience.

We recommend that you use an additional lubricant, such as AQUA, WATERFEEL OR NINA KIKÍ brand lubricant available in classic, silky or heat effect versions.

All Revolution toys are of course waterproof and will be your perfect companion both in a romantic hot tub and under the comfortable sheets at home. The underwater vibrations of this fun companion are perceived by many couples as particularly intense. In addition, since the vibrator is waterproof (IPX7), it can also accompany you in the most humid places, such as the shower or bathtub.

What is REWOLUTION inspired by?

Long before the feminist movement took its first steps during the French Revolution, there have been women of great power, intelligence and with the authority to change the world; an achievement that has double merit, taking into account the time in which many of them lived. The example of these women showed a rupture of the social mold imposed by the dominant classes and the political, royal or ecclesiastical authority of the moment: that of women being subordinated to the power of men. While not all of them consciously worked for the equal rights movement, they helped inspire a moral and cultural transformation regarding the role of women in society. Rewolution is inspired by the French Revolution adapted to the current era. A demand for rights for equality in all aspects.

Abortion, interracial relationships, sex outside of marriage, erotic and pornographic films, sex parties, family planning and, above all, easy access to different contraceptive methods ends up bringing us fully into the sexual revolution. One that, now, has women at the forefront. Men might have had theirs in the past and of course they were invited to this one, but only with the liberation of women could true change come to our society.

In recent decades, women have voluntarily and openly decided to become single mothers while making their way in their professional careers thanks to an autonomy that is no longer frowned upon.

This lifestyle is further reinforced by the appearance of in vitro reproduction techniques in the early 1980s. The second wave of feminism helps propel the third, at the beginning of the 1990s, bringing new issues to the forefront. table such as ecofeminism, lesbian feminism and trans feminism. Women begin to take action on issues that, despite being derived from their own sexual revolution, were still controlled by men.

The history of women's sexual revolution continues to advance in the present, now driven by a fourth wave of feminism born last decade and that aims to tear down the loopholes of a sexist society by fighting against scourges such as sexual harassment or violence against women. women.

It doesn't matter what generation you are from. We are all protagonists of the sexual revolution and that is why we have created REWOLUTION!! Join the feminist movement and join the sexual revolution!
