What is REWOLUTION inspired by?

Long before the feminist movement took its first steps during the French Revolution, there have been women of great power, intelligence and with the authority to change the world; an achievement that has double merit, taking into account the time in which many of them lived.

The example of these women showed a rupture of the social mold imposed by the dominant classes and the political, royal or ecclesiastical authority of the moment: that of women being subordinated to the power of men. While not all of them consciously worked for the equal rights movement, they helped inspire a moral and cultural transformation regarding the role of women in society.

Rewolution is inspired by the French Revolution adapted to the current era. A demand for rights for equality in all aspects.

Abortion, interracial relationships, sex outside of marriage, erotic and pornographic films, sex parties, family planning and, above all, easy access to different contraceptive methods ends up bringing us fully into the sexual revolution. One that, now, has women at the forefront. Men might have had theirs in the past and of course they were invited to this one, but only with the liberation of women could true change come to our society.

In recent decades, women have voluntarily and openly decided to become single mothers while making their way in their professional careers thanks to an autonomy that is no longer frowned upon. This lifestyle is further reinforced by the appearance of in vitro reproduction techniques in the early 1980s.

The second wave of feminism helps propel the third, in the early 1990s, bringing new issues to the table such as ecofeminism, lesbian feminism, and trans feminism. Women begin to take action on issues that, despite being derived from their own sexual revolution, were still controlled by men.

The history of women's sexual revolution continues to advance in the present, now driven by a fourth wave of feminism born last decade and that aims to tear down the loopholes of a sexist society by fighting against scourges such as sexual harassment or violence against women. women.

It doesn't matter what generation you are from. We are all protagonists of the sexual revolution and that is why we have created REWOLUTION!! Join the feminist movement and join the sexual revolution!
