Product description

AIR PUM BUNNY 1

A powerful pump... The Air Pump Bunny 1 is a versatile, inflatable rabbit vibrator that’s here to satisfy. With a looped handle for easy usage, inflatable shaft for targeted G-spot stimulation, as well as an additional clitoral stimulator, experience filling sensations like never before! Ideal for experienced pleasure seekers, the intense powerful motors and increased diameter of the inflatable shaft leaves nothing to be desired.

The shaft is firm and inflexible, with a pointed shape with an edge, but once inflated, the surface of the tip is slightly malleable. Take a chance and personalize the inflation to fit your body perfectly, as the Air Pump Bunny 1 is built for slowly increasing the level of intensity and size. If you’re not in the mood for the fullest sensation, you can easily use the Air Pump Bunny 1 as a regular vibrator as well.

The Air Pump Bunny 1 inflates in under 12 seconds and can be easily adjusted during the filling process. To fill, simply repeatedly push the fill button, to release, simply double click. Also control the 12 different vibration settings within the two powerful motors using the +/- buttons. The Air Pump Bunny 1 is made of body-safe silicone and is rechargeable. Pump to it!

FEATURES:

- 12 vibration programs
