You can enlarge the tip of the vibrator up to 15 mm in diameter with a button, so that it fills you completely. At the same time, it pampers you with the hot vibrations of 2 powerful motors on 12 different levels. And that's still not enough passion for the lover: the rounded clitoral stimulator will drive you crazy with sensual vibrations.

The talent vibrator is equipped with a handy retaining ring that gives you a firm grip, no matter how wild you get. The soft, body-friendly silicone completes the experience by sensually embracing the clitoris and gently filling it. Thanks to the rounded tip, the G-spot can be reached optimally and the inflation of the shaft ensures intensified stimulation by gentle pressure.

The Air Pump Bunny 5 Connect app is compatible with the award-winning Satisfyer Connect app, offering even more customization. Create your own vibration patterns based on your preferences or let the toy shake to the beat of hot music on Spotify. It becomes particularly exciting when you hand over control of the toy to your sweetheart: drop into lust, clear-headed to seventh heaven!

The diameter of the Satisfyer Air Pump vibrators can be pumped up to an additional 15mm at the touch of a button. You can gradually increase the diameter and stop in the middle when you reach the optimum shaft size for you. With continuous pressure, the vibrator reaches its maximum diameter in just 12 seconds, with a double click on the button you can easily release the air again. Do not use vibrators underwater, such as in the shower or bath.
