- 15 year warranty
- Whisper mode
- Rechargeable Li-ion battery
- Magnetic USB charging cable included
- Easy to clean

What else can the Satisfyer Air Pump Vibrator 5 Connect App offer you?

Choose the quivering vibrations of a powerful motor from 12 different vibration programs and be pampered at the same time by the inflatable shaft, which can be enlarged up to 15mm in diameter at the push of a button. Combine the two functions independently to experience intense pleasure just the way you like it!

The voluminous tip of the vibrator stimulates your G-spot in a large area and allows you to achieve intense reflections; these stimuli are further intensified by pumping the shaft. Wrapped in soft, body-friendly silicone, the shaft glides smoothly inside you. A practical retaining ring completes the vibrator so that you have a firm grip even in wild moments and can enjoy individually.

The Air Pump Vibrator 5 Connect app can be connected to the award-winning Satisfyer Connect app for even more exclusive fun. Let the toy shake to the beat of hot music from Spotify, or create your own personal vibration pattern to your liking. For particularly exciting adventures, you can leave control of the vibrator to another person and enjoy captivating erotic moments together.

The diameter of the Satisfyer Air Pump vibrators can be pumped up to an additional 15mm at the touch of a button. You can gradually increase the diameter and stop in the middle when you reach the optimum shaft size for you. With continuous pressure, the vibrator reaches its maximum diameter in just 12 seconds, with a double click on the button you can easily release the air again. Do not use vibrators underwater, such as in the shower or bath.

Your Satisfyer Air Pump Vibrator is made from silky-smooth medical grade silicone, which is extremely slippery and absorbs

your body heat quickly. With a damp cloth and some disinfectant toy cleaner, complete hygiene is ensured, ideally with Satisfyer's perfectly coordinated disinfectant spray. For maximum smooth pleasure, always use your vibrator with one of the Satisfyer water-based lubricants that are ideally suited to the product. They are available in classic, silky and warm versions. The vegan, water-based composition protects the material and keeps the surface of your Satisfyer nice and supple.
