Thanks to its small tip, it provides precise and targeted stimulation. The 12 vibration programs of the finger vibrator also offer variety when playing solo or as a couple.

What are some of the other great things about the Satisfyer Bold Lover?

The body of the small finger vibrator is made of soft, medical-grade silicone and its curved shape hugs your hand perfectly. You can also enjoy intoxicating clitoral stimulation underwater with the Satisfyer Bold Lover: The finger vibrator is waterproof (IPX7) so it can pleasure you in the shower or bathtub too. After use, just clean it with lukewarm water, a little soap and a sexual wellness device cleaner and use the included USB charging cable to give it the power it needs for your next session.
