FOR WOMEN WITH TREND

You know what you want: Satisfyer knows what you deserve. When it comes to clitoral pleasures, indulge yourself! Dual Love fits perfectly in the hand and cares for your skin with a smooth surface made of medical silicone. In addition to its particularly elegant design, this sympathetic toy of course has other impressive arguments to offer: while the non-contact pressure wave stimulation pampers your clitoris, the soft head caresses the labia with intelligent vibrations.

GIVE IT POWER!

Your toy is equipped with built-in batteries and is therefore environmentally friendly. If required, the included USB magnetic charging cable can be supplemented with a standard 5V mains plug.

MATERIAL AND CARE

It is waterproof and is made of medical silicone, smooth as silk, which is extremely easy to slide and absorbs heat from the body quickly. The toy can be easily cleaned with a little soap under warm water. With a little bit of disinfectant toy cleaner, you can ensure particularly thorough hygiene afterwards, ideally with Satisfyer's perfectly coordinated disinfection spray. For maximum pleasure, always use your toy with one of Satisfyer's water-based lubricants that are perfectly matched to the product.

They are available in classic, silky and warm versions. The vegan water-based composition protects the material and keeps the surface of your toy nice and soft.

THE SATISFYER BRAND

Satisfyer: much more than a German brand! It all started with non-contact stimulation of the clitoris thanks to the innovative and patented pressure wave technology. Meanwhile, the world's leading sexual wellness brand enriches the love lives of more than 25,000,000 million women, men and couples in more than 100 countries with a wide range of products, as well as always new and trendy ideas. Technologies with quality features such as high-quality silicone, a 15-year warranty, hermetic workmanship and powerful motors, the successful German brand is always ready to combine technology with exceptional design in its products.
