- Lithium-ion battery
- Easy to clean
- USB magnetic charging cable included

Satisfyer Heat Climax: Anal vibrator with heating function

The Satisfyer Heat Climax with app control provides sensual anal stimulation! The anal vibrator is ergonomically curved and shaped so that it pleasurably fills you out and skilfully pampers your back door. There is also a pleasurable heating function, which ensures an authentic, realistic feeling with a temperature of 39°, like that of body heat. The blissful warmth also increases blood flow, which intensifies your back door stimulation.

Due to its curved shape, the Satisfyer Heat Climax is ideal for prostate massage: The smooth, rounded tip hits your hot spot directly. However, the Heat Climax is also good for stimulating the G-spot: the heated vibrator is unisex and can be used by any gender. Don't forget to thoroughly clean and disinfect the vibrator if you want to use it vaginally after anal stimulation.

Warming vibrator with app control

The 12 preset programs can be controlled intuitively via the control panel on the handle of the sexual wellness device. Thanks to the practical retaining ring, you always have everything under control, even in wilder moments. The heated vibrator can also be controlled with the free Satisfyer Connect app, which is available for iOS and Android and offers you exciting features such as remote control, music vibes or a vibration designer. The features are endless - there's plenty to explore!

Since the Satisfyer Heat Climax is made of body-friendly, silky silicone, it is particularly hygienic and gentle on the skin. This pleasure-bringer can also join you in the shower or bathtub thanks to its waterproof (IPX7) finish. After thoroughly enjoying

yourself, you can recharge the integrated batteries with the included USB charging cable.
