What can the Satisfyer Hot Lover do?

The Satisfyer Hot Lover is a rabbit vibrator with that extracertain something! While the shaft with its ergonomically curved tip seduces your G-spot, the smallerstimulator takes care of the intense clitoral stimulation. The two powerful motors can be controlled independently of each other using the control panel on the vibrator or the Satisfyer Connect app. You can also use the device’s warming function for extra hot moments: The shaft of the Satisfyer Hot Lover can be heated up to 39 degrees C/104 degrees F, which not only ensures a greater sense of pleasure and an increased ability to orgasm, but also a realistic, body-like experience. The warming function can also be activated independently of the vibration controls.

Satisfyer Hot Lover: Warming vibrator with app control

Ergonomically shaped, this warming vibrator hugs your hot spots while it lies comfortably in your hand thanks to its long handle. The design of the Satisfyer Hot Lover is also particularly eye-catching: The shimmering surface in beautiful pastel tones and the sparkling detail throughout make it a real highlight. Thanks to its surface made of body-friendly silicone, it’s also irresistibly gentle and loving to your skin. This Satisfyer Rabbit offers 12 preset vibration programs – and you can get even more variety with the free Satisfyer Connect app for Android and Apple iOS. Create new programs or connect the app with Spotify to experience intense orgasms to the rhythm of your favorite songs. Your Hot Lover can also join you in the bathtub or shower thanks to its waterproof (IPX7) design. After use, your vibrator can easily be cleaned with lukewarm water, mild soap and a little sexual wellness device cleaner and recharged with the included USB charging cable.
