Product description

Your favourite high heels in 3 different colours, the finest silk lingerie, or the new Satisfyer Luxury Prêt-à-porter made from ultra-soft, medical grade liquid silicone, refined with genuine leather and precious metal details - just because you can! Are luxurious designs, the finest materials and a little extra glamour right up your street? Then this refined gem from the new Satisfyer Luxury Collection is the perfect highlight for your toy collection

In supple and elegant fashion, the ring of ultra-soft, medical grade liquid silicone surrounds your pleasure bead and caresses it with the usual breathtaking Satisfyer pressure-wave stimulation. Its intuitive controls let you choose your favourites from 11 different intensity settings and enjoy the heavenly feeling of non-contact clitoral stimulation. The ergonomic shape of the Satisfyer Luxury Prêt-à-porter sits comfortably in your hand, while the refined upper in sensuously structured leather will make you feel like a queen. The rose gold-coloured elements made of precious metal and the silky, matte body in tender pink complete the luxurious design perfectly.

The head of the toy is made from silky smooth, medical grade silicone. The skin-friendly silicone head is optimally shaped, snuggling close to the clitoris and enclosing it very gently and precisely. The toy is easily cleaned with a damp cloth. Despite the waterproof finishing, in order to care for the leather and clean the toy properly, you should remove the head and wash it with lukewarm water and a little soap. Finish off with a couple of sprays of disinfectant toy cleaner to ensure especially thorough hygiene - Satisfyer's own disinfectant spray is a perfect match.
