Are you looking for a toy that feels just as good as a really hot lay? Your search has finally come to an end, because your wishes have been answered: There is now the Satisfyer Men Heat Vibration.

The soft and skin-friendly silicone is wonderfully supple, quickly adjusts to your body temperature, and perfectly complements with the exciting unyielding ABS plastic. For optimal enjoyment, we recommend water-based lubricants, which are ideally suited for the Satisfyer Men Products: Here you can choose between Neutral, Cooling, and Warming. A water-based lubricant protects the material and keeps the surface nice and smooth. Thanks to the waterproof finish (IPX7), you can thoroughly clean the toy with lukewarm water and mild soap and then use the antibacterial Satisfyer Men Disinfectant Spray for comprehensive cleaning.
