### Product description

The partner plus remote provides more intense stimulation due to its twin motors for both partners at the same time. As a bold development of the previous version the new partner plus remote includes a remote control which ensures more opportunities in dealing with the vibration. According to your mood you can decide WHO is allowed to control the intensity with the 10 different vibration modes. Just like the previous model the partner plus remote is made of a body-friendly silicone and is IPX7 waterproof.

The vibrator is rechargeable and includes a Li-ion battery. The remote control is working with a CR 2032 lithium cell which is already included.
