Inspired by classic pair vibrators, it is worn during intercourse and stimulates both partners simultaneously. But this pleasure-giving playmate has more to offer than just a beguiling feeling of tightness, exciting vibrations and a tantalising G-spot massage: in the typical style of the Satisfyer family, it stimulates the woman’s clitoris touch-free through pressure waves, providing deeper stimulation which leads to multiple orgasms. Pleasure guaranteed!

A HIGH POINT AMONG HIGH POINTS!
The ergonomic shape and silky-soft silicone cover of the Pro 4 Couples ensure that it sits comfortably in your hand. Once the tempting design has seduced you, you will be on the path to sharing simultaneous ecstasy. The narrower shaft is worn in the vagina and offers 10 powerful vibration settings which stimulate both the penis and the vagina during sex. While he enjoys the feeling of added tightness round his penis, she enjoys the sensual pressure on her G-spot. At the same time, part of the U-shaped vibrator remains outside, indulging her clitoris with tantalising pressure waves which recreate the sensation of oral stimulation. The seductive interplay between pressure and suction has 11 settings, ensuring an unforgettable sensual experience. The round silicone attachment encircles your clitoris as you are brought to a touch-free climax.

The intuitive controls allow you to control the vibration and pressure wave settings separately, thus resulting in countless possible combinations. The Satisfyer Pro 4 Couples is also extremely quiet, although it may well coax a few noises out of you! The waterproof finish means that it is also the ideal bathing companion, inviting you to enjoy sensual pleasures in the shower or bath.
