### Product description

Do you want clitoral and G-spot stimulation at the same time? Then a rabbit vibrator is just what you are looking for. Do you want more than just vibration? Then let us introduce you to the Satisfyer Spinning Rabbit 1 that combines vibration and rotation in the most satisfying way. In addition to 12 intense and varied vibration programs, this rabbit vibrator has 5 additional rotation programs both clockwise and counterclockwise. As is usual with rabbit vibrators, you insert the shaft of the Satisfyer Spinning Rabbit 1 to stimulate your G-spot from the inside. And there's no need to choose between rotation and vibration, as the two functions can be controlled together or separately. At the same time, the small clitoral stimulator is placed on your pearl and stimulates it from the outside with intense vibrations. Please note: only the shaft, not the clitoral stimulator, features rotation.

Rabbit vibrator made of skin-friendly silicone. The surface of the Satisfyer Spinning Rabbit 1 is made of soft, caressing silicone, which not only feels good on your skin, but also makes it slide easily inside you. In addition, the Spinning Rabbit 1 is waterproof (IPX7) and can therefore accompany you in the shower or bathtub. Thanks to its finish, it is also easy to clean: just use a little water and mild soap, if necessary a little toy cleaner, and your Satisfyer Spinning Rabbit 1 will be ready to move on to the next round.
