Erotic adventures with the Satisfyer Teaser

The Satisfyer Teaser is the perfect companion for curious people. Its versatility always offers both beginners and experienced pleasure-seekers new possibilities of discovery. With the help of its practical strap, the finger vibrator can be pulled onto the hand easily. Once it is on, the options are endless: Use it for clitoral stimulation or for titillating other erogenous zones such as the nipples or perineum. It works wonderfully in solo play as well as with a partner. Despite its manageable size, it’s a real powerhouse: Disguised as an innocent finger vibrator, it will quickly have you going with deep, powerful vibrations with 12 intensities.

Satisfyer Teaser: Waterproof finger vibrator made of delicate silicone

The medical-grade silicone from which the Satisfyer Teaser is made provides sensational stimulation while its vibration rhythms vary from gentle to powerfully intense. The finger vibrator is of course waterproof (IPX7) so it can be used in the shower or bathtub − it’s also easy to clean. Unlike most other finger vibrators and entry-level products, the Satisfyer Teaser is equipped with integrated batteries that can be recharged with the included USB charging cable.
