- App offers an unending range of programmes.

Satisfyer Trendsetter Connect App: Panty vibrator with app control

The Satisfyer Trendsetter stimulates your back door with a flattened, tongue-like shape and powerful vibrations. The vibrating anal plug also offers you the option of app control with the Satisfyer Connect app: With the free app for Android and iOS you can not only control your Satisfyer worldwide via the Internet, but also create your own vibration programs and transfer them to your device. It’s also possible to create new vibration programs based on your Spotify playlist or ambient noise - and you can share your own vibration patterns with the community.

The 12 preset vibration programs of the Satisfyer Trendsetter offer you all levels of intensity from gentle to powerful and can also be controlled without the app via the intuitive One Touch Button. The wide base not only functions as a practical handle, but also ensures you’re always having fun safely.

With its waterproof (IPX7) finish, the Satisfyer Trendsetter can also be used in the shower, in the bathtub or in other wet areas. The smooth surface made of body-friendly silicone can also be cleaned easily with warm water and mild soap. The integrated batteries can be recharged with the included USB charging cable.

With their diverse shapes, manageable size and easy operation, anal vibrators from the Satisfyer Plug Vibrator series are particularly great for beginners to anal play. We always recommend the use of a water-based lubricant for smooth pleasure.
