Product description

Have you ever stopped to think about the importance of the sense of smell? Sometimes we don't give it all the importance we should, but the right perfume is often your best weapon to highlight your attractiveness.

In addition to its irresistible aroma of white gardenia and black vanilla and its warmth, just two applications will be enough to go well perfumed all day.

It is perfect for making a good gift or simply to treat yourself because you will like it so much that you will not stop smelling yourself. But it is also perfect to take with you everywhere due to its format.

The feminine sensual oil perfume Hera, with a natural sexual attractant extracted from the truffle, highlights your attractiveness, increases your confidence and makes you a more exciting, seductive and desired person in the eyes of others. The biological particles of the truffle, with its aroma, stimulate sexual desire naturally.
