Product description

SHEQU remote-controlled vibrating dildos are designed to offer a personalized, innovative, and discreet pleasure experience. Made with high-quality materials, such as hypoallergenic medical-grade silicone, these sex toys are soft to the touch, body-safe, and highly durable.

Key Features:

- Anatomical and Realistic Design: The shape of SHEQU vibrating dildos is designed for optimal stimulation, with textures that mimic the sensation of real penetration. Some models feature pronounced veins, rounded heads, and ergonomic curves to stimulate the G-spot or the prostate.
- Powerful Vibrations and Customizable Modes: Thanks to their powerful yet quiet motor, these dildos offer multiple vibration modes to suit your preferences. You can choose between gentle intensities for slow, deep stimulation or intense vibrations for an explosive orgasm.
- Wireless Remote Control: One of the highlights of these toys is their remote control, which allows you to adjust the vibrations without interrupting the experience. Perfect for couples, as one person can control the intensity while the other enjoys the stimulation.
- Waterproof: Many SHEQU models are IPX7 certified, making them fully submersible and easy to clean. You can use them in the shower, bath, or hot tub without worry.
- Silent and Discreet Mode: Although powerful, these toys are designed to be ultra-quiet, allowing you to use them without worrying about noise, even in shared environments.
- Versatile Uses: They can be used vaginally, anally, or even for external stimulation, depending on the model and personal preferences. Some have suction cups on the base, allowing them to be attached to smooth surfaces for hands-free play.

Ideal for:

- People looking for intense, hands-free stimulation
- Couples who want to add a touch of control and fun to their intimate encounters
- Beginners and experienced sex toy users
