Product description

The **Super Realistic Dildo** has been created for those looking for an experience as close to reality as possible, with details that take pleasure to another level. Made from premium silicone, this erotic toy features thermo-reactive technology, which means it adapts to the temperature to offer you a more realistic sensation: when it heats up, its texture becomes softer and more flexible, while when it cools down, it becomes firmer, simulating the most authentic sensations.

With an ideal size of 23 cm, the Real Skin has been designed to perfectly adapt to your needs. Its ergonomic design ensures total comfort during use, allowing a perfect fit to the curves of the body to maximize the pleasurable experience. Thanks to its water resistance, you can take the fun to the next level, enjoying it in the shower or bathtub without worries.

The Real Skin is the perfect complement for those looking to combine innovation, quality and realism in a single toy. Its high-quality silicone is not only soft to the touch, but also skin-safe, ensuring you a safe and pleasurable use every time.

Explore new sensations with this toy that offers the perfect balance between softness and firmness, thanks to its advanced thermo-reactive technology. Discover pleasure at its finest!

SILEXD®

SilexD® offers a range of dildos with high quality extra soft silicone skin filled with SILEXPAN® double density and hard inner core, for an extremely realistic sensation and an incomparable pleasure experience.

The revolutionary patented formula of the SILEXPAN material used to fill our products allows for better density and greater flexibility of the dildo. Giving it a magnificent sensation and greater elasticity. ;

SilexD® offers the highest quality silicone skin on the market. This platinum grade silicone is phthalate and latex free, body safe, hypoallergenic and non-toxic. porous, which makes it easy to clean and more durable.

A realistic dildo is a sex toy designed to imitate the look and, in many cases, the feel of a human penis. These toys are available in a variety of shapes and sizes, and are commonly used for sexual stimulation, either alone or with a partner.

1. **Shape and Design**: Realistic dildos are characterized by their design that imitates the male anatomy. They have a phallic shape with details that include veins, glans, and sometimes even testicles. This realistic design seeks to provide a visual and tactile experience that resembles human intimacy.

2. **Materials**: These toys are made with body-safe materials. The choice of material can affect the texture, flexibility and temperature of the toy.

3. **Sizes and Dimensions**: Realistic dildos are available in a wide range of sizes and lengths to suit individual preferences. They can range from discreet, compact sizes to larger, more realistic models.

4. **Couple or Solo Use**: Although realistic dildos are commonly used for masturbation, they are also popular in foreplay and sexual activities as a couple. Some models are designed with a wider base or with suction cups to allow use on harnesses or to attach to smooth surfaces.

5. **Care and Cleaning**: It is essential to follow the manufacturers care instructions to ensure the durability and hygiene of the realistic dildo. Most of these toys are easy to clean with warm water and mild soap, and the use of water-based lubricants is recommended to avoid damaging the material.
