## Product description

Skins Extra Large condoms. before deciding on the right size for our Extra Large Skins we recruited a panel of well-endowed men to help, as when it comes to choosing an extra large condom, size really does matter! Our panel of judges tried all the available large condoms on the market and together decided on what they felt was the best fit. The optimum size they arrived at was a girth of 57mm and length of 205mm - and so Skins Extra Large were borm, manufactured exactly to their recommended specification.

Skins Extra Large condoms are made using premium quality natural latex for a clear, natural feeling, strong condom. So thin they feel like a second skin! Never go in without a Skin! - No latex smell - Clear transparent in colour - Natural feeling - Extra lubricated for safety and comfort Skins Natural Condoms have a length of 205mm, nominal width of 57mm.

When used correctly, Skins Natural Condoms greatly reduce the risk of pregnancy and sexually transmitted infections, although no method of contraception can give you 100% protection. Please read the leaflet.
