Skins Fruity lubricants are water-based lubricants with a special twist. Ideal for oral sex, they make foreplay fun and delicious. Make sure the lubricant you choose does not contain sugar, as it can cause vaginal yeast infections. Skins Fruity lubricants come in three flavors: Mango & Passion Fruit, Strawberry, and Watermelon. Water-based lubricants do not stain, are safe to use with latex and all barrier contraceptive methods, and rarely cause irritation. While they may dry out during prolonged sexual activity, they can be easily rehydrated with a little water or saliva. Due to their versatility and effectiveness, they are the most recommended option by experienced couples.
