STERTOY - SANITIZING PACK + 1 FREE STERGEL

Price	**100.15 £**
Number	**73751405**
Producer code	**FETISHID-225592**

Product description

This product is especially indicated even for the eradication of the COVID-19 Virus, it can be used for any object, be it metal, paper, or glass in which you need to eliminate remains of bacteria.

STERGEL hydroalcoholic sanitizing gel is a disinfectant gel that will allow you to wash your hands without the need for water. Its formula based on alcohol and aloe vera removes dirt effectively while ensuring optimal levels of hydration.

Indicated for preventive hygiene in situations of contact with pathogenic organisms destroying around 90% of skin bacteria: gram-negative, gram-positive, microbacteria, fungi, and lipid-coated viruses (including COVID-19, HIV and hepatitis B).

Stertoy is a complete accessory for the sterilization of vibrators, sex toys, mobile accessories, personal items, baby pacifiers, and any accessory that you need to sterilize.

Sterilization is carried out by means of a state-of-the-art ultraviolet lamp that destroys the DNA structure of the bacteria immediately.

The main application of the ultraviolet sterilizer is disinfection.

UV radiation constitutes one of the fringes of the electromagnetic spectrum and has higher energy than visible light. UV irradiation of the germs present causes a series of damage to its DNA molecule, which prevents cell division and causes its immediate disappearance.

The stertoy ultraviolet sterilizer is an advanced disinfection equipment. Ultraviolet UV rays alter the DNA of the microorganisms (viruses, bacteria, protozoa, etc.) present, eliminating them, or genetically inactivating them, to prevent their reproduction. The efficiency of UV in eliminating viruses and bacteria is 99.9%; Furthermore, UV is more effective than chlorine against viruses and protozoa.

The ultraviolet sterilizer equipment consists of a sanitary box with a fully mirror polished interior. Inside the box there is another quartz tube and inside the latter the ultra violet radiation lamp.

This product is especially indicated even for the eradication of the COVID-19 Virus, it can be used for any object, be it metal, paper, or glass in which you need to eliminate remains of bacteria.

These are some of its many benefits:

- Provides disinfection without the use of chemicals.
- Reduces bacteria, viruses and protozoa by 99.99%. and it is perfect for sex toys since being with our body requires an added disinfection.

- Easy to operate and maintain.
- UV does not alter the taste, smell, color and pH of the water.
- UV does not require the addition of chemicals. The UV is compact, easy to install and requires no maintenance.
- Measurements: 25.9 x 14.9 x 9.1 cm

Cleaning Guide

Cleaning Guide by Material

Silicone: soap & water, boiling, or bleach solution. Glass/Metal: soap & water, boiling, or dishwasher (top rack). TPE/TPR: soap & water only (no boiling). ABS plastic: soap & water only.

Never use silicone lube on silicone toys – use water-based lube instead.
