Choose between the 6 soft and delicate aromas available, floral, fruity, sweet, classic... To enjoy your shower, your bath or your SPA moment at home.

This unmistakable fragrance is one of the most used in perfumery because it is directly associated with pleasure, it transmits good sensations and makes us feel good. It is a warm, sweet, balsamic and deep fragrance that envelops everything. It is almost "edible" and enjoys great popularity, perhaps due to its marked confectionery character. It is an aroma that has the power to transport us to pleasant moments in our lives and evokes childhood, grandma's desserts, ice cream, innocence and family. But due to its exotic origin, it also takes us to distant paradises covered with orchids and palm trees, colorful and scented by its smell.

In aromatherapy, it is a highly appreciated aroma for its relaxing qualities, it is a powerful natural antidepressant that relaxes tensions. It transmits peace, tranquility and security, although it is also used as a stimulant. Vanilla is also a well-known aphrodisiac...

In any space, Vanilla creates environments that stand out for its caramelized aroma, which sweetens rooms with a comforting and warm feeling, which is why it is usually used more to aromatize spaces in the colder months of the year. Wherever it smells of Vanilla, the spaces are filled with the aroma of home and feelings of warmth, comfort, protection and family.

Characteristics: Sweet and caramelized notes with Vanilla and in the background, floral, aromatic and oriental notes. Its intensity is 4 points out of 5.

If you like the aroma of Vanilla, you have more options to enjoy it. You can put it in your car, in your drawers and cabinets, on the terrace, in the shower, in your bathtub or in any of your favorite spaces. Discover it here.
