## Product description

The TENGA FLEX rotates, sucks and hugs with its unique spiral grooved shell.

There are two varieties to enjoy, each with different internal details and material strength! The soft spiral ribs hug each other with delicious suction.

Remove the base cap and lubricate the insertion point and the inside of the elastomer sleeve.

Cover the air hole to create an internal vacuum! Using the item with the air hole covered also provides a new spiral feeling!

After use, remove the elastomer sleeve and wash it with water. Dry after washing. (The elastomer cover can be reversed for washing.)

Invert the base lid to use as a drying base.

Place the elastomer sleeve on the holder cap to air dry.

Once dry, return the stand cover to its original state and insert it into the case for storage. Store in a cool, dry, dark place, away from direct sunlight.

- Size (W × L × H mm): 200 × 105 × 80
- Insertion Depth (mm): Approx. 165
- Insertion Width (mm): Approx. Four. Five
- Weight (g): 365

## Brand characteristics

Brand characteristics: selected TENGA products available at Sforne with discreet delivery and clear product information.

## Care Guide

## Masturbator Guide

Use lubricant for best sensation. Clean after each use (soap and water). Air dry completely before storing.

Heating the sleeve improves realism. Rotate between sleeves to avoid boredom.
