The TREASURE philosophy

We work on the philosophy of satisfying distinguished clients. To that end, we fully support the rights to pleasure that we all have. Thus, we were born not only as TREASURE and manufacturers of revolutionary sex toys, but as designers of experiences that seek full fun, trying to achieve new worlds of satisfaction along the way that overwhelm the five senses.

Thus, TREASURE introduces the new line of sex toys with WATCHME patented technology. In the pre-launch, 500,000 units have been sold divided into 15 countries around the world and we have already managed to stand out in the sector by combining the luxury of its sex toys with the use of the most advanced and latest generation technology.

So far we have talked a lot about elegance in TREASURE products. A touch of luxury at an affordable price for any type of pocket. However, it is necessary to highlight in this revolutionary brand its technology, materials and design. Ready for a new era?

Some of TREASURE's toys include WATCHME watch technology, with the watch included and ready to use with or without the remote control. But what is this technology?

It is a sex smart watch that will help you control TRASURE sex toys. We can synchronize them with sex toys that use watchme technology to control the vibrations and functions of our sextoy.

Functions of a WATCHME watch

In a WATCHME watch there are some outstanding functions that we will detail:

- Activate / Deactivate vibration.
- Modify vibration modes
- Modify the intensities in each vibration mode.
- But are Anne's Desire Toys also waterproof?

Treasure, of course, is waterproof and will be your perfect companion both in a romantic hot tub and under the comfortable sheets at home. The underwater vibes of this fun partner are perceived by many couples as particularly intense.
