How do I clean VirilXL extension?

VirilXL can be easily cleaned before and after each use. The surface can be cleaned with mild soap and warm water. For a thorough disinfection we recommend the Waterfeek Disinfectant Spray, Intimichic toy cleaner or Nina Kikí disinfectant that combines perfectly with soft silicone. For smooth placement as well as problem-free training, we also advise using a few drops of lubricant, such as the classic version of Waterfeel or Aqua.
