Price	114.87 €
Number	77643229
Producer code	FETISHID-235698
EAN	4251460619219

Product description

The pleasure is all yours when you meet the We-Vibe Vector+ vibrating prostate massager!

Vector already provided you with intense and stimulating sensations and the experience has only gotten better. The Vector+ is the ultimate prostate massager, stimulating both the prostate and perineum with gentle pressure and rumbling vibrations.

The Vector+ has not only updated its wireless remote control, but also the way it plays! Now with 10 vibration modes, 4 more than the previous 6 offered by the original Vector, you'll find new patterns that will invigorate and excite you to new levels. Feel the rise and fall of the Wave, the intensity of the Ultra speed setting or even the constant pulse pattern. Everything can be controlled from the Vector+ itself or from the new wireless remote control. This massager also connects to the free We-Vibe mobile app so you or your partner can play with your pleasure on your phone.

Designed in collaboration with leading clinical sexologists, Vector+ precisely stimulates the prostate and perineum simultaneously, creating the ultimate combination of style and technology for a new, more advanced, dual-stimulation climax.

This supremely comfortable massager has an adjustable head and flexible base so you can find the perfect fit and deliver those tantalizing tremors right where you want them. It's made with body-safe silicone and is waterproof, so wet and enjoy in the shower or bath. However, do not get the remote control wet as it is only splash proof. Always use a water-based lubricant, like the included We-Vibe sample, and remember to wash your massager with warm water and a premium toy cleaner before and after each use.

Hit all the right spots with the We-Vibe Vector+!
