Product description

The Womanizer Premium 2 has amped up its game with more intensity levels than ever before and an improved Autopilot function to take you on the ride of your life. With the original Pleasure Air technology, this is the ultimate toy for women who are looking for more than just another device to play with.

Made for you and your body, the Premium 2 uses a unique innovation called Pleasure Air Technology. Why is it so special? Your clitoris is stimulated without direct contact. Gentle air vibrations suck and massage together to provide an unprecedented orgasmic feeling. For a tailored experience, switch between the additional stimulation heads to find the right fit.

14 intensity levels allow you to achieve your perfect setting, whether that is soft and gentle or powerful and intense. The improved Autopilot mode allows your toy to alternate between intensity levels and keep you on your toes and take you through a pleasure-filled adventure.

Innovative Smart Silence Technology lets you indulge in your desire. The toy only starts when it meets your skin. If you're not using it, the toy goes into standby mode. This not only makes the toy quieter to use but keeps you in the moment without distraction. With a waterproof rating of IPX7, bring your Premium 2 into the bath or shower.
