Ingredients

- Maca, Damiana, Muira Puama, Ginseng, Caffeine, Ginko Biloba and Selenium

Active ingredients

- Andean Maca

Maca, in addition to being a body and mind invigorator, is a powerful aphrodisiac and sexual tonic. Research into its chemical composition has shown that maca root contains a substance called p-methoxybenzyl isothiocyanate, which increases female libido and helps resolve impotence problems.

- Damiana

Damiana is a plant of Mexican origin that is primarily recognized as a non-toxic natural stimulant, effective in increasing sexual vigor in both sexes.

- Ginseng

The most recognized effect of ginseng is the stimulation of libido on the sexual glands. In women, it is beneficial for those who are in the early stages of menopause. Similarly, in men it increases blood flow to the penis.

- Muira Puama

Short-term use of Muira Puama increases blood flow to the pelvic area, helping to prolong the feeling of pleasure and orgasm in women, as well as erections in men. Long-term use increases the production of sex hormones in both sexes. Muira Puama is a genuine natural aphrodisiac and can provide the most effective natural therapeutic method for loss of libido in both sexes.

HOW TO USE

- It is recommended to chew 1 piece of gum 10 minutes before drinking alcoholic beverages.
- Recommended daily dose of 1 piece of gum.
- If the individual's weight is over 80 kg, it is recommended to take 2 pieces.
- The effects may vary depending on each individual, depending on their weight, age, or health status.
