MATERIAL AND CARE

Xray Jelly Material is non-porous, non-porous and therefore highly hygienic. The soft and flexible texture ensures that the Jelly material is nice and easy to slip on. Quickly absorbs and stores heat from your body. For the use of lubricants, we recommend a Waterfeel water-based lubricant. This is smooth with the material and ensures that it maintains the texture for a long time. After use clean it with the waterfeel toy cleaner or neutral pH soap and warm water for a perfect cleaning.

XRAY, THE BRAND

Firm and realistic feel according to the XRAY brand, a top quality product at an affordable price that can be a perfect combination of price and pleasure.
