Product description

The 25cm female vagina masturbator with thrusting from **XISE** is designed to offer a realistic and intense pleasure experience. Thanks to its innovative automatic thrusting system, this toy recreates the sensation of deep and rhythmic penetration, providing completely immersive pleasure.

Its realistic and anatomically detailed structure features a vaginal canal with internal texture designed to stimulate every inch of your member, increasing the intensity of each movement. Made with high-quality TPE silicone, this masturbator offers a soft and elastic touch that imitates human skin, guaranteeing a comfortable and natural experience.

With a total length of 25cm, this masturbator allows for deep and enveloping penetration, while its Automatic movement offers effortless play. Ideal for both solo sessions and those seeking an experience similar to real penetration, this toy will take you to the next level of pleasure.
