Product description

BAYEK is designed to elevate couples' sexual experiences to epic proportions that are worthy of the gods of ancient Egypt. Sleek, soft silicone covers this ergonomic shape that comfortably fits between two bodies to enhance penetration from the inside and out. Featuring 8 powerful modes of vibration to stimulate the clit as well as the G-Spot, BAYEK features a built-in motor in its extending arm that comfortably fits over the shaft to provide deep internal massage. BAYEK also features dual rings that stretch around the scrotum and base of the penis to enhance erection. It can also be worn around the fingers to enhance stimulation by hand. A beautiful, gleaming golden shield-shaped embellishment adorns the exterior of the device for a boost of style.

BAYEK comes with a matching soft, silicone-encased remote control that can be used to operate its multiple powerful vibrating functions without interrupting couples' play, and it is also compatible with the ZALO Remote Pro app that allows users to customize the powerful functions with the tap or stroke of their fingertip and control BAYEK from anywhere in the world via Bluetooth and Wifi.
