## Product description

KING applies ZALO's own innovative PowerThrust technology to integrates high-performance motor systems and precision electric drive structures. It breaks the limitations of traditional electromagnetic drives, and raises the thrusting power of the motor to a new level. With a thrusting frequency of up to 40 times/second, King brings you a most powerful orgasmic experience.

- PowerThrust technology with a range up to 40 times stimulation per second
- Up to 15mm of telescopic distance
- Independently-controlled thrust-type motor and vibration motor to meet various requirements
- Diamond-shaped surface design on the head part for extra stimulation
- Silken Dow Corning food-level liquid silicone meeting with FDA requirements. Exclusive Softek surface coating.
- Embellished with Swarovski crystal
- App remote control
- Rechargeable and waterproof
